MEMORANDUM FOR: Director of Logistics

FROM:

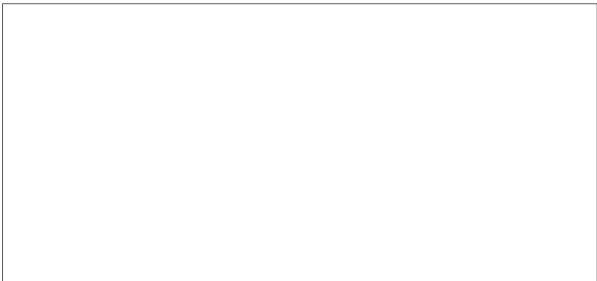

Congressional Affairs

SUBJECT:

Federal Energy Improvement Act (S.1382)

1. The Senate will probably pass the subject bill before adjournment (attached). The House passed an identical bill last June (attached)

2. You will recall that  Deputy Chief of Facilities Management Division, and I had sought relief from two provisions contained in the bill. Last June we spoke with Britt Snider of the SSCI in an attempt to persuade the Committee to intervene in our behalf with Senator Metzenbaum, sponsor of the bill. You will also recall that we were unsuccessful in gaining any support for our concerns. A copy of the Memorandum for the Record reporting our efforts and the results is attached.
